Our Quality Policy

As Meyteks, our main goal is to meet the needs of our customers in a best way and to offer them to our customers by following brand new trends

On the way to this goal, with the awareness that manpower is the most significant power; we work to prepare our employees for the future by educating them within the social responsibility framework

Quality is the most crucial criterion in our selection for supplier, and accordingly it is our preference to use environmentally friendly raw materials

In order to achieve the best in line with the principles of Quality Management System, we are committed to renew and improve ourselves; and to meet applicable requirements
